PROFESSIONAL SUMMARY

Detail-oriented Geospatial Analyst and Data Scientist with 3+ years of hands-on field surveying experience and emerging data science expertise gained through Moringa School. Uniquely positioned at the intersection of traditional survey technology and modern data analytics — capable of collecting, processing, and deriving actionable intelligence from geospatial and environmental datasets. Proficient in Python, SQL, AutoCAD, GIS tools, and machine learning pipelines. Passionate about applying data-driven approaches to infrastructure, land development, and humanitarian projects internationally.

TECHNICAL SKILLS

Python	SQL	Pandas	Scikit-learn	Streamlit	Plotly
AutoCAD	Civil 3D	ArcGIS / QGIS	Total Station	GPS Survey	Cartography
Jupyter	Git / GitHub	Tableau	ERDAS	Land PKS	MS Office

WORK EXPERIENCE

Engineering Surveyor (Field Staff) | Kenya Airports Authority (KAA) Jun 2021 – Aug 2023 • Lanet Airstrip, Nakuru

- ▶ Conducted topographical mapping and established survey control points for Lanet Airstrip Rehabilitation Project
- ▶ Set out works for airside infrastructure including pavements, drainage, and runway markings
- ▶ Controlled excavations for pavement and drainage works using Total Station and GPS equipment
- ▶ Booked and reduced field levels during quality checks of completed construction works
- ▶ Collaborated with engineers and contractors to troubleshoot survey discrepancies in real-time
- ▶ Produced survey plans and computation reports with AutoCAD and Civil 3D

Topographical Surveyor | Kingdom City Development

2023 • Nakuru, Kenya

- ▶ Executed complete topographic survey of Kingdom City development zone
- ▶ Processed and analysed raw field data to generate accurate digital terrain models
- ▶ Produced survey deliverables including contour maps and setting-out plans for design teams

Industrial Attachment — Land Survey | Kenya Airports Authority (KAA) Jan – Apr 2020 • Nairobi, Kenya

- ▶ Performed topographical mapping at Nyahururu Airstrip; collected survey plans and RIMs at Survey of Kenya
- ▶ Constructed Part Development Plan for land leased by KAA to KENHA at Wilson Airport
- ▶ Participated in Airside Project as Assistant Engineering Surveyor; calculated area of adjacent parcel

Field Surveyor | Private Clients

2021 • Kitui, Kenya

- ▶ Carried out complete topographical survey of Kanyonyo Airstrip, Kitui County

EDUCATION & TRAINING

Data Science Bootcamp | Moringa School

2024 – 2025 • Nairobi, Kenya

- ▶ Intensive training in Python, machine learning, SQL, data visualization, and the CRISP-DM methodology
- ▶ Capstone: End-to-end ML pipeline predicting real estate prices ($R^2 = 0.9486$, Ridge Regression)

BSc Survey Technology (Awaiting Graduation) | Technical University of Kenya (TUK)*2021 – Present*
• Nairobi, Kenya

- ▶ Core modules: Geospatial Analysis, Remote Sensing, Photogrammetry, Cadastral Surveying, Engineering Survey

Diploma in Land Surveying — Credit 1 | RCMRD (Regional Centre for Mapping & Resource Development)*2017 – 2019 • Nairobi, Kenya*

- ▶ Specialisations: Cadastral Surveying & Land Law, Survey Control & Engineering Survey, Cartography, Photogrammetry & Remote Sensing
- ▶ Proficient in Dumpy Levels, Digital Levels, Theodolites, Total Stations, GIS, ERDAS, AutoCAD, Land PKS

Certificate in Information Technology (Stage 1) — Credit | St. Bakhita Training Institute*Jan – Jun 2017 • Nairobi, Kenya*

KEY PROJECTS

Real Estate Price Intelligence <i>Python scikit-learn Streamlit Plotly</i>	End-to-end ML pipeline on 2,928 Ames housing sales. Ridge Regression model ($R^2 = 0.9486$, RMSE \$18,342). Live interactive Streamlit dashboard with neighbourhood price landscape and live predictions. Full CRISP-DM methodology across 8 structured phases.
Sales Business Analysis <i>Python Pandas Jupyter Matplotlib</i>	Exploratory and descriptive analysis of the Global Superstore dataset — identifying top-performing regions, product categories, and seasonal sales patterns to inform business strategy.
Air Quality Analysis — India <i>Python Pandas Seaborn EDA</i>	Analysed air pollution trends across Indian cities (2015–2020) using AQI data. Identified key pollutants, city-level disparities, and temporal patterns relevant to environmental policy decisions.
Portfolio Dashboard <i>HTML CSS GitHub Pages</i>	Personal portfolio website showcasing data science projects, skills, and professional journey. Hosted on GitHub Pages.

CERTIFICATIONS & AFFILIATIONS

- ▶ Moringa School — Data Science Program Certificate (2024–2025)
- ▶ RCMRD Diploma in Land Surveying — Credit 1 (KNEC, 2019)
- ▶ Certificate in Information Technology Stage 1 — Credit (St. Bakhita, 2017)
- ▶ Kenya National Police Clearance Certificate (Feb 2020)
- ▶ Pursuing: Institution of Surveyors of Kenya (ISK) Graduate Membership

LANGUAGES & INTERESTS

Languages: English (Professional) • Kiswahili (Native)
Interests: Urban & Infrastructure Planning • Environmental Data Science • Drone Surveying & Remote Sensing • Geographic Visualization & Cartography • Open Source GIS
